

To Whom It May Concern,

I had the privilege of working with Alec for about 18 months at Prime Trust. During that time, he was a machine of taking requirements, breaking them down, and turning them into delivered software. Even when he did not have domain knowledge, he jumped in with gusto and his own trademark gallows humor until the task was accomplished. He helped push me to become a more diligent code reviewer, and grew in his own right when it comes to reviewing code himself. I would happily recommend him for any role involving a keyboard and information.

Sincerely,

Alexander Harasty

Senior Software Engineer at Immuta
